**Candidate for the federal electoral division of Page NSW**

*"It's insanity to keep on doing the same thing over and over and to expect a different result."*

**Vote for change and make a difference to Page on election day**

**PALMER UNITED  
REUNITE THE NATION**

I might be new to the Northern Rivers but we have made it our home and invested our savings into a local business which is already employing local people. Running for office wasn't part of the plan at this time but sometimes an opportunity arises that is just too important to pass by and not follow with all your heart and might.

Palmer United is not a party of lobbyists, people with vested interests or career politicians, but a team of real people, with real jobs, real families and real concern about the current state of our nation. We care about the things you care about, your family, your environment, your prosperity and your future! We have many initiatives that we will unveil over the coming weeks to reverse the downtrend, stagnation, negativity and political bickering of the last decade. Initiatives such as combating indigenous infant mortality rates,

abolishing fringe benefits tax on entertainment to revitalise our restaurant industry, providing extra funding directly to our public hospitals, reducing waste in the public tendering processes and many more.

Locally, I will work to develop markets for our regional produce, the arts, culture, tourism and small business through building stronger economic ties across the border and across the state, reducing red tape and bureaucracy and creating an environment where people and business can thrive.

I will advocate passionately for our region, I will listen, I will work hard and I will act on behalf of the people of Page, carrying your voice to Canberra!
